

**REMARKS**

Examiner Garcia is correct in noting that line 5 of claim 35 included an extraneous "a" immediately before the phrase, "helium gas". The original claim 35 did not contain such an "a" and Applicant did not intend to insert it there. Review of the record indicates that the extraneous "a" inadvertently came in, in the response of August 2003. A strike-through is place through the "a" here to indicate it should not be part of Claim 35. Entry and substantive examination are respectfully requested. Applicant also wishes to thank Examiner Fourson for his telephonic assistance of 8/12/04 in this matter. A telephone call to the below listed attorney is requested if there any further issues to be resolved.

**Request for Entry, Examination and Allowance**

Entry and examination are respectfully requested for the amended application.

The Commissioner is authorized to charge any underpayment or credit any overpayment to Deposit Account No. 50-2257 for any matter in connection with this response, including any fee for extension of time and/or fee for additional claims, which may be required. If any extension of time is deemed necessary to keep the application pending, it is hereby requested.

I hereby certify that this correspondence is being facsimile transmitted to the USPTO or deposited with the United States Postal Service with sufficient postage as first class mail in an envelope addressed to: Commissioner for Patents, P.O.
